

# The DAK-C130 C-130 Aircraft Fuel Tank Access Panel Duct Adapter Kit

Ground Support Equipment for Aircraft Fuel Systems  
Inspection and Maintenance Operations

**NSN: 4720-01-431-9624**

This Duct Panel / Adapter Kit used with Rhine Air Ventilator Systems will dramatically increase the Blow/Purge method to properly vent Fuel Tanks on C-130 Aircraft. The Kit will also decrease substantially the time needed to complete the ventilating process. The DAK-C130 Panel Kit is custom designed to fit properly with the aircraft's fuel tank access openings.

Kit panels are fabricated from Aluminium and stainless steel and feature 8" (203mm) and 4" (101mm) diameter J-slot Quick Disconnect Duct Rings. Panels also include mounting holes with attached female thread fasteners for quick attachment to the aircraft without prior modification. The Kit stores within a tough reusable plastic moulded container that features attached lifting handles, removable lid and a forest green colour.

Dimensions of Storage Container: Length 39" (99cm) Width 23" (59cm) Height 12" (28cm)

Total Kit weight 50 lbs. (23kg)

### **MAV ventilation kit Features**

- A very portable system to ventilate one or multiple Aircraft Fuel Tanks at once
- Achieves an unparalleled level of safety and efficiency
- Functions with portable or stationary compressed air supply
- Proven through documented testing to drastically reduce the time required to render fuel tanks safe for inspection or repair
- Lightweight and very portable, sets up quick and easy
- Impact and Crush resistant reusable container with built-in equipment storage dividers
- Off the shelf, commercially available
- Designed specifically for Aircraft Tank Ventilation
- Capability to purge and exhaust Fuel Vapors completely away from Aircraft Location
- Produces a safer working environment
- Entire System designed to dissipate and relax Static Electrical Charges
- Low Noise Operating Level

### **Contents:**

- Access Panel Duct Adapter for Tanks 1 or 4
- Access Panel Duct Adapter for Tanks 2 or 3
- Wing Filler Port Duct Adapter for Tanks 1 through 4
- Access Panel Duct Adapter for Auxiliary Tank
- Overboard Vent Duct Adapter for Auxiliary Tank
